

Joel Rosas

Software Development | Front End Web Development
(718) 594-5911 | joeli.rosas20@gmail.com

SKILLS

JavaScript, HTML, CSS, Java, DevOps, ReactJS, IntelliJ, VSCode, Eclipse IDE, Git

EXPERIENCE

Revature, Software Engineering, Remote

JANUARY 2022 - MAY 2022

- Trained in Java, HTML, CSS, JavaScript, Angular, Databases, and Selenium using Eclipse IDE and VSCode
- Collaborated on a doctor searching website, implementing the doctor home page using Angular
- Designed and developed a reimbursement website using HTML, CSS, JavaScript and Java
- Created a bank system on the console using Java

Infosys, Associate, Remote

MAY 2022 - JANUARY 2023

- Wrote SQL queries for MySQL database to get users information and documented results on Word and Excel.
- Responsible for QA analysis and reporting throughout the entire site.

PROJECTS

The Space Explorers Game — December 2020 - September 2021

- Created a video game where a robot explores a planet and needs to avoid the aliens inhabiting it.
- Crafted a video game using java on the IntelliJ IDE.
- Managed to make the robot stand on the platform, walk on the platform, properly interact with the aliens, play the music and summon the next level when it reaches the end of the level.
- Achieved to use my understanding of java to make a functioning game.

Resume Site — June 2021 - present

- Developed a resume site for showcasing achievements.
- Launched the site using ReactJS on the VSCode IDE.
- Made the website have navigation links to show my projects, a section for contacting me and show information about me.
- Generated my first website using a framework.

Exercise Site — February 2023 - present

- Initiated a web app to track my workouts.
- Build a website using HTML, CSS, and JavaScript on the VSCode IDE.
- Added the functions of adding workouts where the information added was the number of sets, repetitions and pounds. It also can delete the workout and edit it too.
- Was able to learn the functions of HTML, CSS and JavaScript to make the website look appropriate on mobile.

EDUCATION

Lehman College, Bronx, NY — B.S. in Computer Science

AUGUST 2017 - JANUARY 2022

- Data Structures and Algorithms
- Video Game Programming class
- Web Development class
